### BADINOTTI grows in Fish Farming Supply

in the last year BADINOTTI GROUP has introduced its own brand line of Aquaculture

Products, in order to satisfy the ever growing demand of its own Clients.

The Badinotti Aquaculture *Blue Deep* brand is particularly destined to the cage farming and mainly focused in the offshore site.

The wide range of products for fish farming includes: Fish Farming Nets, Cages, mooring equipment, Navigational Buoys, Netwasher, Hydrojet Cannon Feeder and Special Mussel Farming System.

## Badinotti Group purchases Wave Master Canada

Akva group ASA has entered into a letter of intent with Badinotti Group S.p.A. for the sale of all shares in Wavemaster Net Services Ltd ("WMNS") in BC, Canada, one of the biggest Service Station for Fish Farming Net in North America.

In the letter of intent the completion of the sale is subject to several conditions including the purchaser's due diligence.

Due to the pending due diligence and finalization of the agreement, it is currently premature to publish a purchase price. The agreement is expected to be closed within 30 September 2009.

BADINOTTI Group by this acquisition would improve and reinforce its presence in the North American Salmon market being closer and closer to the fish farmers needs.

BADINOTTI Group will complete the range of netting products by selling: netting in bale, complete fish farming nets and net maintenance.

## New web site ONLINE

Badinotti Group has finally renewed its web site.

It is a nice opportunity to show worldwide the range of netting production along with the new aquaculture products line "BLUE DEEP" dedicated to cage farming.

At the moment English and Italian versions are available. Spanish and French will come soon.
